

# Native Hawaiian-Owned Family of Companies

GSI provides professional services to support the Department of Defense (DoD) as well as federal and civil customers worldwide. Our team of managers and analysts apply their vast knowledge and skills to enhance the understanding of, and develop alternative solutions to complex issues; support and improve the operation of organizations; and provide outside points of view, advice and assistance for a broad area of interests including environmental restoration and compliance, resource conservation and climate change, environmental sustainability, strategic planning, asset management, logistical support and analysis, and financial analysis. We have a full suite of technical staff in nine offices across the Continental United States and the Pacific and we have the ability to translate our vast experience supporting environmental, conventional and chemical munitions response projects to providing seamless and comprehensive support and tailored solutions to meet customer needs.

# PROFESSIONAL SERVICES

## Representative Projects

### Analytical and Advisory Support

**Role:** Prime Contractor

**Location:** Various Locations, U.S.

**Client:** USACE, Omaha

**Customer:** Recovered Chemical Warfare Material (RCWM) Program Integrating Office (IO)

**Contract Value:** \$2.2M

**Scope:** Provide a variety of professional and technical services for the U.S. Army RCWM Program IO.

### PROJECT HIGHLIGHTS

Now in the fourth year of support to the RCWM Program IO, GSI products include in-depth research reports based reviews of the historical records of chemical warfare-related activities. GSI also supports program management, risk management, financial analysis and drafting and implementation of policy documents. GSI provides comprehensive support to a complex program involving many stakeholders within DoD and the U.S. Army.

### Financial Management Support

**Role:** Prime Contractor

**Location:** Fort Belvoir, VA.

**Customer:** USACE, Omaha District

**Customer:** Defense Logistics Agency (DLA) Installation Operations Energy (DF-FEE)

**Contract Value:** \$1.2M

**Scope:** Provide cost, budget, audit readiness and financial services to support the DLA Energy Division.

### PROJECT HIGHLIGHTS

Under this contract, GSI provides on-site financial analysis support to DLA's FEE. Support includes preparation of quarterly reports, analysis and resolution of negative and blocked payables, tracking of obligations, preparation and analysis of financial reports to inform and integrate with reporting for other DLA divisions and general financial management support. A primary focus is assisting DF-FEE with audit readiness activities.

### Environmental Consulting Services

**Role:** Prime Contractor

**Location:** Fort Belvoir, VA.

**Customer:** USACE, Omaha District

**Customer:** DLA DF-FEE Environmental Restoration Branch

**Contract Value:** \$1.3M

**Scope:** Provide environmental and technical services to support DLA's DF-FEE.

### PROJECT HIGHLIGHTS

GSI provides environmental consulting services to the DF-FEE to assist with the planning and programming process for its funded environmental projects. Services include developing training, conducting training events and meetings, working closely with DLA Program Managers and Leadership to identify and evaluate sites that are appropriate for Remedial Process Optimization, developing recommendations and closure timelines, and providing on-site Technical Restoration Support to DLA.

### Public Affairs & Communication Support Services

**Role:** Prime Contractor

**Location:** Aberdeen Proving Ground, MD

**Customer:** USACE, Omaha District

**Customer:** Chemical Materials Activity (CMA)

**Contract Value:** \$0.5M

**Scope:** Provide on-site public affairs and communications support.

### PROJECT HIGHLIGHTS

GSI provides on-site support to the U.S. Army CMA Public Affairs Office. Support includes the creation and development of original graphics, animation, video productions and other information products designed to communicate how CMA supports the U.S. Army mission. Efforts include consolidating and simplifying complex information for presentation via various media.
