

Joint Venture LLC

THINK SAFE, WORK SAFE, GO HOME SAFE.

The GSIH-RECON Joint Venture LLC is an SBA approved Mentor-Protégé Joint Venture between GSI Hawaii Inc (GSIH), and Remedial Construction Services (RECON). The JV combines the capabilities of both firms into a single seamless entity, providing industry-leading Environmental Remediation, Site Preparation, Mine Reclamation, and Decommissioning & Demolition services to both CONUS and OCONUS customers.

PROVEN RESULTS

GSI Hawaii

- 15+ years of successful delivery of Construction, Environmental Services, Munitions, Fuels and Professional Services across U.S. and Pacific Regions.
- Headquartered in Hawaii with operational offices in Colorado, Washington, New Jersey, Maryland, Florida and Guam.
- Holds nearly \$6B in multiple award contract capacity across the U.S. and the Pacific.

RECON

- RECON is a technology-based construction and environmental remediation company founded in 1989.
- Acquired by Keller Group plc, the world's largest geotechnical specialist contractor, in July 2021.
- Self-perform more than 90% of work, working in all 50 states, plus Canada and the Caribbean.
- Over 35 years of environmental construction project experience.
- Safety culture and programs produce world-class safety results and consistently keep Total Recordable and Experience Modifications rates well below industry average of 1.0.

ABOUT US

GSIH-RECON JV LLC is an SBA approved Mentor-Protégé unpopulated Joint Venture between GSI Hawaii Inc (GSIH), a Native Hawaiian Organization Owned (NHO) SBA Certified 8a small business and part of the GSI Family of Companies (GSI); and Remedial Construction Services, LP (RECON), a member of the Keller Family of Companies (Keller). The JV combines the depth and breadth of resources, and experience of both groups into a single entity to provide seamless project delivery for Environmental Remediation, Site Preparation, Mine Reclamation, and Decommissioning & Demolition services, with technical staff to solve and implement large-scale, complex remedial actions that require value engineering to develop approaches that will accomplish the desired results from an environmental aspect while assuring the health and safety of the workers, facility personnel and the surrounding communities. With GSIH as the managing partner, the JV is eligible for both small business and 8a contract awards, with no dollar limit on direct awards for the Department of Defense.
